Rich Charlson's 2013 Segmenting Workshop

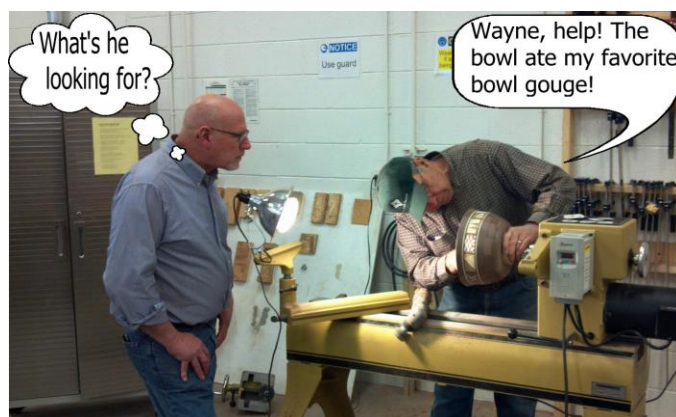

The very successful 2013 Rich Charlson Segmenting Workshop concluded on February 23rd. It was an opportunity for us to learn or further develop our segmenting skills thanks to **Rich Charlson, Randy Gazda, and Terry Hill**. The success of the class is evident by the segmented pieces displayed at the March 5th meeting and illustrated in the Photo Gallery. Rich, Randy, and Terry shared their skills and equipment with the club members who attended and for that we are all grateful.

The last two sessions of the workshop were dedicated to creating a club

segmented bowl that will allow us to raise funds for the club. To all of you that participated in creating the club bowl we thank you very much.

Rich is already talking about the 2014 Segmenting Workshop so be aware that he is willing to share even more with us.

Thanks to **Rich, Terry, Randy, Darrell Young, and Paul Snyder** for bringing the equipment for the class to use.

Finishing the Club Bowl.... (Photo by Tom Krajacich)

Club Bowl

We had a segmented bowl returned to the club from the Shriners that was in need of repair. Thanks to Terry and Randy the bowl was repaired and will also be raffled for fund raising. Both of the club bowls are now being finished by the master of finishes **Wayne Petrini** and we thank him very much for

volunteering to make them look outstanding. Actually, one of the bowls is finished and tickets are being offered by Rich Charlson at the Art Show.

Finishing the Club Bowl

As you can see, Wayne did a fantastic job in finishing the repair bowl.

Demonstrations

March 5th

Thanks to Ken **Quaschnik** for his demonstration on the use of the Bedan Turning Tool. We had the opportunity to try the tool under his supervision. During the Great Falls Tribune's interview by Briana Wipf, Tribune Staff Writer, he convinced her to try the tool for a first-hand experience in woodturning. Thanks Ken.

Please take note that Ken was able to get Rich Charlson to try another tool other than his 'special scraper' that he is known for around the turning community

Kudos Korner

Special Thanks

Thanks to Rich Charlson, Randy Gazda, and Terry Hill for their outstanding instruction and time donated to our club during the eight week Segmenting Workshop.

A special thanks to **Randy Gazda** for replacing the damaged bowl bottom with a new morning star bottom. It allows us to raffle the club bowl. Also, thanks to **Terry Hill** for providing the morning star to repair the bowl.

A very special thanks to Kendra Owen for arranging the Great Falls Tribune to do a special interest article on the club. We appreciate very much the publicity for our club to make our community aware of the fine talent that exists and the generosity of our members.

Thanks to **Paul Snyder** for the great photographs he takes during the meetings and instant galleries. This particular meeting was very demanding with all of the

segmented bowls and all the others offered to the Instant Gallery.

Thanks to all the members who contributed this month to the set up and take down at the meeting, cleaning up the facility, fund raising and everything it takes to make the club a success.

Perpetual Bowl

The lucky winner of the Mar 5th drawing of the perpetual bowl was Sam Sampedro. David Stratton created the really nice bowl from Locust. Sam has the honor of providing the perpetual bowl for the April 2nd meeting.

YWCA Bowl Contributions

Thank you so much for your participation in the YWCA Empty Bowl donations. I'm sorry to say that I was not aware of who specifically donated all the bowls so I'm not able to give the proper recognition to those individuals. I

hope that this is the first of many annual contributions to the YWCA.

Norfolk Island Pine – Barry Rockwell

Rough turned Norfolk Island Pine Bowls by Barry Rockwell. The bigger one is 16" diameter and the smaller one is 14" diameter. They look like a segmented bowl.

Shop Tip – Dave Stratton

While on the internet, I found a very cool project for you Powermatic guys. I may even try something like this for my lathe.
