Great Falls Woodturners Club 2014 Segmenting Workshop

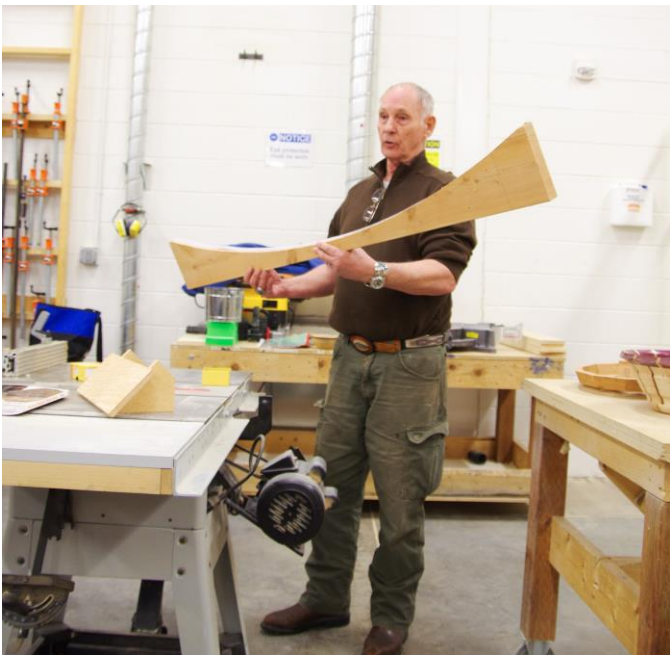

Club Demonstrations

Kent Holtz – Feb 4th

The secret is out! On Feb 4th **Kent Holtz** gave us his secret to making those great stave bowls that he has been bringing to the Instant Gallery and providing to the Perpetual Bowl.

Kent demonstrated the procedure in which he used to get a precise angle in which to cut the staves. Using his table saw fence, a laser pen (available at Office Depot or Staples) combined with a 2x6 cut with an arc and lined with a flexible measuring tape, he can make precise cuts for gluing and making various sized bowls. Kent brought to our attention the Malcolm Tibbets book entitled The Art of Segmenting, which has the tables necessary to make the correct angles and sizes to complete the segmented stave bowl.

We thank Kent for his excellent demo.

Editor's Note: Kent subsequently sent an email to the club and the content follows:

During the Tuesday demonstration of cutting compound angles using the electronic "tilt box" and the laser pen, someone asked if the "tilt box" could be used to set the miter angle. I tried it and it works perfectly.

So, forget about using the laser pen and the 2x6 and use the "tilt box" to set the blade angle and the miter angle.

Clamp the miter gauge slide vertically in a vise, zero the "tilt box" and then tilt the fence to the angle required. Whoever made the suggestion, please step forward and receive a gold star.

Kent

2014 YWCA Empty Bowl Program

The YWCA Empty Bowl Program for 2014 will be in May this year. The format for the program has changed from a three day event to one day in a location that will accommodate the number of folks that would normally come during the three days.

As most of you already know, our club's donation of 26 bowls was a big hit. All of them were selected on the first day and were the first to be chosen. It would be great if we could equal the number or surpass it this year. It is a very worthy cause so I encourage you all to pitch in and help make the program even better.

Janet Duffy, Executive Director of the YWCA would appreciate it very much if we could get the donated bowls to her by **April 11, 2014**.

2014 Segmenting Workshop

Jan 11th – Feb 8th Rich Charlson, Terry Hill, and Randy Gazda

Rich, Terry, and Randy kicked off the 2014 Segmenting Workshop with a presentation on what projects could be accomplished during this year's workshop.

At the second day of the workshop Terry and Ben Hill conducted a great day of learning. It was obvious to everyone in attendance that those two gentlemen devoted a lot of time, effort, and expense to give us an incredible demo of the three facets of segmenting being addressed this year.

Terry illustrated the three methods in which we could approach the segmenting project that we selected in the beginning of the workshop.

Terry invited members new to turning and segmenting to have a hands-on experience in shaping and gluing pieces of material on a project that Terry was working on. The three volunteers had a touchy feely experience and saw how easy that form of segmenting can be.

Ben Working on a Bowl Ring

Terry Working on a Hollow Form Top

Terry demonstrated putting a scalloped edge on a vessel.

Our three instructors evaluated the completed and near completed projects. Pictures of the projects, both completed and still a work-in-progress are noted in the Instant Gallery.

After the evaluation was complete, Rich conducted a review of the workshop and then solicited comments from the attendees. There was an excellent critique and suggestions in which members offered their wish list of events for the 2015 workshop. The bottom line was to have a workshop in which members are informed ahead of the workshop start on what materials to bring to the first class and then members would be able to work on their projects during the workshop days. The club is accumulating equipment, but members will supplement the equipment by bringing additional equipment.

Rich continued the segmenting workshop by requesting an update from the attendees on how they were progressing and make him aware of any questions and concerns they had working on their projects.

There are more pictures of the workshop after the instant gallery.

Club Meeting Schedule & Demonstrations

- *Feb 4th Demo – Kent Holtz, Stave making, Super accurate miter & compound cuts
- **Feb 15 Demo – Terry Hill
- *Mar 4th Meeting, Demo – Paul Snyder – Corian Pen
- **Mar 15th Demo – Randy Gazda – Turning a Stool
- *Apr 1st Meeting, Demo – Jay Eklund – Eggs and Mushrooms
- **Apr 19th Demo – Sam Sampedro – Finishing a Rough Turned Bowl
- *May 6th Meeting, Demo – Sam – Sharpening (Per Request)
- **May 19th Demo – Chuck Kuether – Putting Finishes on Your Work
- *Jun 3rd Meeting - Demo – Chuck Kuether – Drying Wood in a Microwave
- **Jun 21st Demo – Jigs, tips, tricks, and tools – everybody bring some of your best.
- * 6:30 PM
** 12:30
-

Perpetual Bowl

The 'Perpetual Bowl, turned by **Sam Sampedro** was won by **Chuck Kuether**. Chuck has the honor of providing the perpetual bowl for the Mar 4th, 2014 meeting.

Info Tip – Reb Bishop & Paul Snyder

This is a website that Reb Bishop sent to Paul Snyder and Paul submitted it to the newsletter so you can all learn very interesting information about finishes. It is just over 36 minutes long, and covers a nice variety of questions about a lot of areas of finishing. I found it to be a very worthwhile investment in time.

Info Tip – Sam Sampedro

At the end of the Instant Gallery is a listing of woodturning schools that I

found on the AAW site. There are quite a number of schools available to us.

Special Thanks...

Terry Hill – A very special thanks to Terry Hill for his donation of the Drum Sander to the Club. It will give members an opportunity to work on their segmenting projects the meeting.

Arnie Owen – For repairing the donated Drum Sander.

Dave Stratton – For Re-formatting the Club's listing of available DVDs.

Paul Snyder – For his expert photography at all the sessions of the 2014 Workshop

Rich Charlson, Terry Hill, and Randy Gazda for conducting the 2014 Segmenting Workshop. Thanks for sharing your knowledge and expertise.

Editor's Comment: My thanks to the following individuals who helped with the content of this newsletter:

Reb Bishop

Sat Jun 21	Jigs, tips, tricks, and tools – everybody bring some of your best.

Regional Symposiums

Woodturners of Olympia, WA / 2014 Symposium - Richard Raffan

Registration for the 7th Annual Woodturning Symposium is fully open.

See attached The Brochure for full Information. It is attached to the accompanying email note.

You can Reg. by mail or On line at :

http://www.woodturnersofolympia.org/?page_id=1740

Symposium : July 26, 2014

Location : Lacey, Wa.

Program : Richard Raffan and Nick Stagg.

Please provide this Information to your members, at your meetings, news letters, & web sites.

For more Information contact :
